Reporting to the Maintenance Manager, the Industrial Mechanic is responsible for the routine and preventative maintenance of production equipment and building systems. The successful candidate will show leadership and initiative; understand and adhere to all plant Food and Safety Policies. You must be a self-starter and able to work independently with minimal supervision, able to multitask, work within timelines, and operate under stressful conditions.

**Primary Responsibilities:**

- Shared responsibility with other members of the Maintenance Team to ensure daily operation of all plant production equipment
- Trouble shooting/repairs/installations of processing and packaging equipment with a working knowledge of electrical systems to allow efficient repair/replacement results
  - Electrical equipment (AC drives, power control circuits, starters, MCC's, motors)
  - Instrumentation (pneumatic controls, hydraulics, transducers, servos)
- Machine and fabricate parts for equipment repairs and/or upgrades
- Perform repairs to building mechanical systems as required
- Actively participate in our monthly preventative maintenance programs and records.
- Recommend and implement corrective action and required repairs
- Use of computerized maintenance management system
- Microprocessor based systems (PLC's, Electronic circuits, controls)
- Assist in planning, organizing of work activities (drawing interpretation, parts preparation)
- Coordinate and oversee 3<sup>rd</sup> party contractors
- Follow all company policies including: GMP; SQF; HACCP; WorkSafe BC; etc

**Skills and specifications:**

- 5 to 7 years' experience in an industrial/food processing environment
- Ability to identify and solve problems
- Mechanical and electrical repair knowledge is required
- TIG welding experience is preferred
- Metal works (fabricating machine components and building conveyor belts) experience is preferred
- Good computer skills
- Strong communication and interpersonal skills
- Ability to work well in a team environment
- Demonstrated ability to prioritize workload and effectively meet deadlines
- Highly motivated – able to work well with minimal supervision

- Self-motivated and passionate individual, who has a high sense of urgency, thrives with a wide variety of work and can deliver consistent results on multiple priorities.
- Automation & DDC experience is an asset
- Boiler, refrigeration and HVAC experience is an asset
- Trade Certification is an asset
- Proficient in Mandarin and/or Cantonese is an asset

**Location:** East Richmond (No 9 Road and Westminster Hwy)

**Hours of Work:** flexible schedule however must be available to work on Saturdays and Sundays
